BETEC COMPANY PROFILE

BETEC GROUP LIMITED is a national new & high-tech enterprise, providing a seamless intergration of R&D, production and sales as one of the most well-know consumer electronics manufacturer. Founder in 2001, mainly engaged in electronic premiums. Since 2005, we have been focusing on developing and producing novel electronic gift related to power resource, i.e. safety car charger, wireless charger, phone holder and much more.

Our factory covers over 1500 square meters and includes our R&D center, with more than 80 member on our outstanding production staff, our facility contains multiple Rohs machine and four manufacturing workshops.

We are certified to ISO9001. Our products are always certified for safety and quality by organizations at home and abroad, such as UL, ETL, CE, ROHS, FCC, PSE and more. We are proud to hold our products these standards, and our innovation can be seen in our 50+patens for invention, utility, and appearance.

Our company has a professional in house R&D team composed of many talented members. This team is focused mainly on creating products for OEM & ODM orders, with many excellent designs so far. Mainly in the market of United States, the European Union, Japan, South Korea... more than 50 countries and regions.

YUROAD®

BRAND STORY

With the rapid development of the economy, more and more families choose to travel by car, and the car has become an indispensable travel tool for most families. At the same time, the frequent occurrence of driving safety problems has also gradually improved people's awareness of driving safety, and the demand for driving safety has been continuously enhanced. For the safety of driving, there is still a lack of professional safety products and effective solutions.

Therefore, Mr. Yuf, the founder of YuRoad, together with the company's employees, is determined to develop a lightweight safety accessories that can be obtained by drivers at any time in the car to achieve self-rescue. To make driving life safer, more convenient and happier is the original intention of YuRoad.
